# Advanced Tru-Image Printing
New & Improved Digital Process

Tru-Image Printing

Now Annin's Improved Tru-Image Printing Process is available on flags made of Nyl-Glo as well as on flags made of polyester. This allows for reproduction of your digital images with greater penetration and richness of colors.

The Tru-Image Print is a process which combines state of the art digital technology with old world craftsmanship to produce clean, crisp, faithful reproductions of your most intricate designs

Our Tru-Image Print process mimics both the look and soft, supple feel of the Anco-Dye process but with lower minimum runs and greater capacity for detail.
