- ★ *SIMPLE LOW COST GROUND
SLEEVE INSTALLATION*
- ★ *YOUR CHOICE OF INTERNAL
OR EXTERNAL MODELS*

Flagpole Size	Recommended Flag Size	Wind Speed Flagged*	Wind Speed Un-Flagged
20ft	3x5 ft.	100mph	130 mph
25ft	4x6 ft.	100mph	130 mph
30ft	5x8 ft.	100mph	130 mph
35ft	6x10 ft.	100mph	130 mph
40ft	8x12 ft.	100mph	130 mph

*While the poles are designed to withstand winds up to 100 MPH flying the flag sizes indicated, we strongly recommend that the flags be lowered when winds exceed 50 MPH to avoid damage to the flags.

The above information on maximum wind speeds is provided based on the poles being correctly installed and flying only one flag that does not exceed the recommended size for that pole.

Accessories cannot be guaranteed separately as they may be subject to improper use.

It still looks new!
This pole with Polymer Gel-Coat finish has been exposed to the elements for 10 years.
